25

1 ISO PLM method. Sample preparation for the
2 heavy liquid density is not the ISO method, but
3 that's what I -- what we had been calling the
4 CSM method.

5 Q. Okay.

6 A. So it's two different things. There's
7 sample prep, but then there's the analysis to
8 determine if chrysotile is present.

9 Q. Right. So that analysis follows the ISO
10 22262-1 methodology?

11 A. Yes.

12 Q. And Paul Hess, he was the individual who
13 performed all of the PLM analyses as part of
14 this report that was marked as 3F as well as the
15 part that was marked as 3G?

16 A. Yes.

17 Q. Okay. And I guess as part of this
18 report, 3F, Mr. Hess identified what he
19 identified as chrysotile at levels varying
20 from -- without the liquid separation
21 technique -- levels from .006 to .009 area
22 percent weight, correct?

23 A. I believe that's correct. I know you're
24 just reading it off the results, but I always
25 feel silly if I agree and then it's not. That

die.)

REPORTER'S CERTIFICATE

I, KAREN WATERS, Registered Professional Reporter, do hereby certify that previous to the commencement of the examination, the said DR. WILLIAM LONGO, was duly sworn by me to testify to the truth in relation to the matters in controversy between the parties hereto; that the said deposition was taken in machine shorthand by me at the time and place aforesaid and was thereafter reduced to typewritten form; that the foregoing is a true transcript of the questions asked, testimony given, and proceedings had.

I further certify that I am not employed by, related to, nor of counsel for any of the parties herein, nor otherwise interested in the outcome of this litigation.

IN WITNESS WHEREOF, I have affixed my
Signature this April 27, 2021.

Karen Waters
